

## Pre-K and Kindergarten Lesson 4: Wildlife

### Intro

- Make a list of things students remember about ocean life and zoo life
- Introduce butterflies and other insects with wings (moth, bees, wasps, crickets, katydid, etc.)
- Note any student experiences with wildlife such as camping, walking, or hiking

### Listen and Respond Whole Group

- Listen to **A Butterfly Called Hope** by Mary Alice Monroe
- Guide students through making a **Butterfly Life Cycle Chart**– find in Materials and Resources
- While students are working, play the song **The Turtle and the Butterfly**

### Wrap up

- For confirmation of understanding, students should be able to place each stage on a chart (egg, larva, pupa, butterfly) when asked to do so

### Extend

- Talk about other life cycles of animals (frogs, chickens, turtles, etc.)
