

Pre-K and Kindergarten Lesson 6: Animals Everywhere

Intro

- Make a list of things students want others to know about animals they have learned about from the previous lessons

Listen and Respond Whole Group Activity

- Listen to *On The Move: Mass Migration* by Scotti Cohn
- Magnetize or Velcro the **Animal Printout** found in the Materials and Resources section
- Have one student at a time come up, pick an animal and place on a chart labeled ocean life, zoo life and wildlife
- Some animals could go in more than one category

Individual Activity

- Students will show understanding of previous lessons by creating a “**Foldable**” directions can be found in the Materials and Resources Section
- There will be 3 sections (Ocean life, zoo life and wildlife) on the “foldable” which can include both pictures and text
- Students can display these or take them home
- This can also be used as an assessment tool
