

Compatible Devices

Tales2go is designed to work on desktops, laptops, Chromebooks and most mobile devices including smart phones and tablets. Tales2go does not currently support Kindle or Nook devices.

[Apple Devices](#)

The latest version of our iOS app requires iOS8 or higher. The Apple App store supports the loading of the best version of our app that will play on your device. If your iOS device does not support iOS8 then an older Tales2go version may be available for you to use.
